

Support the Tax Free Tip Act of 2011

- **Why?** America's hardworking waiters and waitresses deserve this most basic protection of their wages.
- **Why?** Often times they are paid low hourly wages and expected to earn the rest of their income from tips.
- **Why?** Tips aren't always a guaranteed, steady income and can fluctuate wildly.
- **Why?** The IRS makes an estimate of how much service-sector workers will make in tips, and taxes them on it even if the taxpayer did not actually earn as much as the IRS' estimate!
- **How?** Call Congress at 202-224-3121, and tell your representative to co-sponsor and support Congressman Ron Paul's "Tax Free Tip Act of 2011."
